 - Students participated in a telemedicine project
- BRN Self-Study for re-approval was submitted last Fall
- Re-approval visit was successful (no deficiencies)

WE ARE PROUD THAT...

- Our first-time NCLEX pass rates are 95-100% throughout covid!
- 95% retention and completion rate
- All students return to the skills lab every semester for ongoing skills assessment and practice
- All students participate in simulation experiences ever semester
- Simulation is leveled throughout the curriculum
- At least 25% of our students are concurrently enrolled for a BSN (Sonoma State, University of Phoenix and Pending- Touro University MSN)

- Lack of availability for clinical sites
 - Size restriction on groups going into clinicals
- Paperwork requirements vary significantly from facility to facility
- Shortage of faculty
 - Training for clinical faculty is available
 - Send us your best staff nurses, please!
